

Shermann

GS-F2 flying bracket

Rigging and safety instructions

IMPORTANT. If you have any questions about the safe, secure fitting of any Sherman bracket please call us on **08456 44 22 09** for further information.

Safety bond - link to trussing or separate secure point.

The cable stud fitting **MUST** lock securely into the track.
As a test, the wire attached to the stud may be pulled at any angle without risk of detachment.
